

# JOIN US FOR JANUARY SEMINARS!

## EARTH SCIENCE LABS VIRTUAL CHEMICAL SEMINAR

WEDNESDAY, JANUARY 13<sup>TH</sup>  
10:00 AM

Our staff is very excited about new products from Earth Science Labs.

With a severe national chlorine shortage expected in 2021, you'll want to be sure to tune in to find out how AlgaeShield can help your clients effectively reduce chlorine usage.

We've also received reports from the field that CYA Down and EnzyPure really do work as advertised to lower cyanuric acid levels! Rebecca Thompson of Earth Science Labs will guide us through these products and answer any questions you might have.

## RAYPAK VIRTUAL HEAT PUMP SEMINAR

WEDNESDAY, JANUARY 20<sup>TH</sup>  
10:00 AM

Are heat pumps trending?  
What are the pros and cons of heat pumps?  
How do you size a heat pump?  
How much is saved by not running a gas line?  
Will a heat pump work in the Midwest (Ohio / Michigan)?  
How do Raypak heat pumps stack up against the competition?  
Do heat pumps cost less than gas heaters to operate over time?

...If any of these questions have ever crossed your mind,  
be sure to join us for this virtual seminar.  
We'll cover all this and more!

### RAYPAK SEMINAR:

Or type [bit.ly/seminarJAN20](https://bit.ly/seminarJAN20)  
into your web browser

No registration is required for these seminars.  
Simply click the link a few minutes before the meeting is set to start.  
However, Quality Pool Supply does recommend allowing extra time for setting up  
a free Microsoft Teams log in (required) and downloading the  
free Microsoft Teams app prior to the meetings.
